Overview

OpusApeiro strives to be the leader in environmental sustainability and believes that a successful future for our business and the customers we serve depends on the sustainability of the environment, communities, and economies in which we operate.

As a responsible corporate citizen, we bear a responsibility to consider the impacts of our actions and how they affect the environment both directly in terms of our own operations, and indirectly through our purchasing decisions, the products, and services we offer to our customers and the business opportunities we pursue. OpusApeiro is committed to fulfilling its Environmental compliance obligations. We are committed to minimizing the impact of our operations on the environment and to demonstrating leadership by integrating environmental considerations into all business practices.

We will establish and periodically review and report progress on objectives and targets in the pursuit of continual improvement in our environmental management system for the purpose of enhancing our environmental performance and ongoing prevention of pollution.

OpusApeiro will minimize the environmental impacts of our own operations through best practice management of our use of energy, transportation, material consumption, water use, waste, and emissions. We will encourage suppliers, subcontractors, retailers, and recyclers of our products to adopt the same environmental principles as OpusApeiro.
